New User Numbers.

The list below shows the newly established usage classifications. It has been modified slightly from the NSF-established categories used previously and is intended to better reflect the Wofford situation. Each job should be classified into one of the following categories and a complete user number created by suffixing your three-character identification code to the appropriate number from the table below. Each different application requires a change in user number.

Number	Subject
S74001	Computer Science
S74011	Physics
S74023	Chemistry
S74035	Math
S74041	Biology
S74055	Psychology
S74066	Government, Sociology, Economics and Education
S74075	Administration and Non-credit research
S74088	Arts and Humanities
S74099	Other
